Total Degree Plan Credits: _____

Degree Coursework Requirements
- 30+ hours of graduate-level coursework
  - Required courses completed
  - 18+ Advanced ECE Courses (6000- and above)
  - Up to 12 credit hours of 5000-7000 level allied courses will be accepted - *see MS Degree page for a list of allied courses and departments.*

Degree Coursework Criteria
- A minimum GPA of 3.0 on coursework listed on the program of study with no grade lower than C- is required for graduation. **Courses cannot be removed from a transcript after they are taken**. If a student receives a grade lower than C- in a course listed on the Program of Study they must take a different course to meet the 30-credit requirement or repeat that same course and receive a higher grade, if the course is required for their track.
  - Students who receive an "Incomplete" grade in a class must complete the work as soon as possible.
- Coursework cannot be used for more than one degree.
- Cross-listed courses must be registered through the ECE course numbers.
  - A course taken for 5000-level credit cannot be taken again for 6000-level credit.
  - Where an ECE course has both a 5000- and 6000-level number, the 5000-level version is intended for undergraduates and the 6000-level version for honors and graduate students. The two versions of the class will meet together, but extra work will be expected of honors and graduate students.

Students should be prepared to graduate the semester the coursework requirements are completed.
